Yes: 7 - Chairperson Wilson, Vice Chair Schroeder, Boardmember Cross, Boardmember
Soller, Boardmember Johnson, Boardmember Heck and Boardmember Nesser

No: 0

D. District Manager Report

No report.

E. District Director Report

2. [26-44](#) Presentation, discussion and update on Verde River Sediment Mitigation Study.

District Director Loggins presented an overview of the Verde River Mitigation Study. The subcommittee came together to discuss the reallocation process for the remaining capacity after the federal government expressed interest in half of the capacity created by the modified dam. Most cities wanted to go back to the original allocation requested. The other cities wanted to start over with the process. Salt River Project presented two different options and the subcommittee decided to go back to the original plan of cities' needs versus what cities wants. Most of the cities voted to go back to the original allocation request. The District secured votes to retain 4,741-acre feet (AF)/year capacity in Modified Bartlett, which is more than half of the original request of 7,718 AF/year. Negotiations are still in process with the federal government. Mr. Loggins presented a timeline to show the progress of the project. Estimate for the final project is \$3.4 billion.

3. [26-45](#) Presentation, discussion, and update on District wide water system.

Mr. Loggins presented an update on the District wide water system. Drilling on Well 10 will be starting at Ironwood Road, north of Ray Avenue. The final build out of the Water Treatment Plant and the expansion and upgrade of Booster Station 2 have both started.

Chairperson Soller asked about the Colorado River and where the states are in deciding a solution for reallocating water between the states. Since the upper and lower states could not come to an agreement, the federal government will be reviewing and trying to come up with a solution.

F. District Treasurer Report

No report.

G. Adjournment

Chairperson Wilson adjourned the meeting at 6:29 p.m.
