

CITY-WIDE JOB ORDER CONTRACTING SERVICES AWARD OF CONTRACTS

July 1, 2025

JOB ORDER CONTRACTING (“JOC”)

- JOCs are a common project delivery method for construction services outlined in Arizona Revised Statutes section 34-603 and 34-604
- The City Code also identifies use of and regulates JOCs
- The City has historically "piggy-backed" off other city, county, and state cooperative JOC contracts.
- Once awarded - the city can request pricing for a specific project from a contractor off of the list. If an appropriate price can be agreed upon, they generate a “work order”

JOC BENEFITS

- Significant time and cost savings by streamlining administrative processes
- Readily available awarded contractors can begin work faster
- Allows for more flexibility to scope and price projects well in advance of limited scheduling windows to complete work (i.e. school breaks, peak facility usage, etc)
- Allows for key steps like permitting to occur in cooperation and at the outset of a project
- Allows the city to have its own JOC – hoping to attract more locally regional firms

PROCESS FOR SELECTION

- City published Two Request for Qualifications (RFQ)
- Firms submitted Statement of Qualifications (SOQ)
- Panel reviewed and ranked 26 total SOQs
- Panel consisted of 5 city staff representing Parks & Rec, Public Works, and CIP (one of which is a registered engineer) and 1 licensed contractor

TRADE SERVICES – RFQ 25TS-001

Projects may range from \$2,500-\$500,000
