Planner Hernandez gave a presentation on Case P-24-69-CUP and then invited the applicant to speak.

Applicant Grant Taylor with Empire Southwest, LLC gave a presentation and asked for questions from the commission.

Comments included:

- What type of material for dust control is used? Asphalt millings.
- Is xeriscape the landscaping requirement? There is a zoning ordinance requirement for landscaping by the applicant, and irrigation must be provided. Drought tolerant landscaping is a requirement as part of the Arizona Municipal Water Association.
- Why are we going through a CUP when it's already zoned B-5? The reason we have to go through a public hearing when it's already a permitted use is because of previous history of storage yards, to protect from getting junk yards and ensuring those types of yards don't show up in the city. The CUP process is to ensure the city is adequately butting the uses and not getting an abundance of storage facilities within the city.

Chair Hantzsche opened the public portion of the hearing. Having no one speak, Chair Hantzsche closed the public portion of the hearing.

Chair Hantzsche read the Findings of Fact and the commission agreed with the findings.

Chair Hantzsche called for a motion.
