## **II. SCOPE OF WORK**

### 1. The Parties agree:

- a. The Project will be completed, accepted, and paid for in accordance with the requirements of the Project plans and specifications.
- b. The final cost estimate may exceed the initial estimate identified in Exhibit A, and in such case, the City is responsible for, and agrees to pay, the difference prior to bid advertisement. If the final Project amount is less than the initial estimate, the difference between the final bid amount and the initial estimate will be de-obligated or otherwise released from the Project and returned to the State. The City acknowledges it remains responsible for actual costs and agrees to pay according to the terms of this Agreement.
- c. The City and ADOT will each separately file a Notice of Intent (NOI) under the Construction General Permit (CGP) with the Arizona Department of Environmental Quality (ADEQ) before construction begins, if applicable to the Project.

### 2. The State will:

- a. Execute this Agreement, and if the Project is approved by FHWA and funds for the Project are available, be the City's designated agent for the Project.
- b. After this Agreement is executed, and prior to performing or authorizing any work, invoice the City for the initial Project Development Administration (PDA) costs, estimated at \$30,000.00. If PDA costs exceed the estimate during the development of design, notify the City, obtain concurrence prior to continuing with the development of design, and invoice as determined by ADOT and the City for additional costs to complete PDA for the Project. After the Project costs are finalized invoice or reimburse the City for the difference between actual costs and the amount the City has already paid for PDA.
- c. After receipt of the PDA costs, on behalf of the City, prepare and provide all documents pertaining to the design and post-design of the Project, incorporating comments from the City, as appropriate. Review and approve documents required by FHWA to qualify the Project for and to receive federal funds. Perform tasks that may consist of, but are not limited to, preparation of environmental documents; analysis and documentation of environmental categorical exclusion determinations; geologic materials testing and analysis; right of way related activities; preparation of reports, design plans, maps, specifications and cost estimates and other related tasks essential to the design development of the Project.

- d. Submit all required documentation pertaining to the Project to FHWA with the recommendation that the maximum federal funds programmed for this Project be approved for scoping, design, construction and construction engineering. After receipt of FHWA authorization, proceed to advertise for and enter into contract(s) with the consultant(s) for the design and post-design of the Project. Should costs exceed the maximum federal funds available it is understood and agreed that the City will be responsible for any overage.
  - e. After completion of design and prior to bid advertisement, invoice the City for the actual PDA and design costs exceeding the initial cost estimate and the difference between the final construction cost estimate and the initial cost estimate, as applicable. After the Project costs for construction are finalized, the State will either invoice or reimburse the City for the difference between estimated and actual costs. De-obligate or otherwise release any remaining federal funds from the scoping/design phase of the Project.
  - f. After receipt of the actual PDA and design costs, if applicable, and the difference between the final and the initial construction cost estimates, if applicable, submit all required documentation to FHWA with the recommendation that the maximum federal funds programmed for construction of this Project be approved. Should costs exceed the maximum federal funds available, it is understood and agreed that the City will be responsible for any overage.
  - g. After receipt of FHWA authorization, proceed to advertise for, receive and open bids award and enter into a contract with the firm for the construction of the Project. If the bid amounts exceed the construction cost estimate, obtain City concurrence prior to awarding the contract. After the Project is awarded, invoice the City for the difference between estimated and actual costs, if applicable.
  - h. Notify the City of completion and final acceptance of the Project. At such time, file a Notice of Termination (NOT) with ADEQ transferring CGP responsibilities to the City, and provide a copy to the City indicating that the State's maintenance responsibility of the Project is terminated, as applicable.
  - i. Notify the City of completion and final acceptance of the Project; coordinate with the City and turn over full responsibility of the Project improvements.
  - j. Not be obligated to maintain the Project, should the City fail to budget or provide for proper and perpetual maintenance as set forth in this Agreement.
3. The City will:
- a. Designate the State as the City's authorized agent for the Project.
  - b. Within 30 days of receipt of an invoice from the State, pay the initial PDA costs, estimated at \$30,000.00. Agree to be responsible for actual PDA costs, if during the development of design, PDA costs exceed the initial estimate. Be responsible and pay for the difference between the estimated and actual PDA and design costs of the Project within 30 days of receipt of an invoice.

- d. Enter into an agreement with the design consultant which states that the design consultant will provide professional post-design services as required and requested throughout and at completion of the construction phase of the Project. After final acceptance of the Project, provide an electronic version of the record drawings to the ADOT Project Manager.
- e. After completion of design, within 30 days of receipt of an invoice from the State and prior to bid advertisement, pay to the State, any outstanding PDA and design costs, and if applicable, the difference between the final and initial construction cost estimates. In the event of any unauthorized encroachment or improper use, the City shall take all necessary steps to remove or prevent any such encroachment or use. Provide a copy of encroachment permits issued within the Project limits to the State.
- j. Automatically grant to the State, by execution of this Agreement, its agents and/or contractors, without cost, the temporary right to enter City rights of way, as required, to

- l. Be obligated to incur any expenditure should unforeseen conditions or circumstances increase Project costs. Be responsible for the cost of any City requested changes to the scope of work of the Project, such changes will require State and FHWA approval. Be responsible for any contractor claims for additional compensation caused by Project delay attributable to the City. Payment for these costs will be made to the State within 30 days of receipt of an invoice from the State.
- m.
