

Apache Junction Police Department Interdepartmental Memo

DATE: May 2, 2016

TO: Bryant Powell, City Manager

FROM: Thomas E. Kelly, Chief of Police

SUBJECT: Amended Contract Agreement

Reference is made to our previous telecom with Tom Donahue at GTL regarding the Value-Added Communications which has been previously provided to the police department through contract. This contract previously afforded the police department (at no cost to city) inmate telephone communications within the detention center. These telephones were collect call only phones that would be available within the secured cell area of the detention center for prisoner use. All maintenance, up keep and repair costs are born to the provider and the provider does pay the city a small stipend for the space provided for the telephones in the cell areas. Again no fees or cost to the city.

This is merely an updated contract with the provider for an additional year ending June 1, 2017.
