## Apache Junction Police Department Interdepartmental Memo

---

DATE: August 3, 2016  
TO: Janet Mason  
THROUGH:  
FROM: Captain T. R. Mullender  
SUBJECT: Hitching Post Extension of Premises

I have inspected the Hitching Post and spoken with the applicant concerning an extension of premises request. The police department has the following concerns:

- The ingress and egress into the rear parking area located off of Lost Dutch. The entrance gate small and had poor lighting. With a major event this cause traffic issues on Lost Dutchman and State Route 88.
- How the applicant is going monitor and prevent parking along the west fence along State Route 88? If customers are allowed to park at this location they will be backing out onto State Route 88 when then they leave.
- The event area is not completely in closed. It would make it very difficult to ensure alcohol is not being removed from the premises.
- The type of security will be used at large event.
