City of Apache Junction
Home of the Superstition Mountains

Date: June 1, 2017

To: Mayor and Members of the City Council

Through: Bryant Powell, City Manager
John Mitchell, Interim Public Works Director

From: Shane Kiesow, Public Works Manager

Subject: Project #: PW2017-09 Award

City staff respectfully requests city council consideration of award of contract to Viasun Corporation for the crushing of the city's asphalt concrete located at the 575 E. Baseline Avenue Public Works yard. This item was discussed at city council work session on April 18, 2017. Specific work will entail the crushing and screening of waste asphalt pavement to be turned into crushed recycled asphalt pavement to be used for future street maintenance operations. The crushing work would be scheduled in the fall of 2017 with the work done by the contractor taking an estimated six weeks. Gross maximum cost to crush the city's existing pile is \$541,684.24 with the actual quantity possibly being less resulting in less cost. Cost per ton would be \$4.65 which includes all costs of the work and equipment incurred by the contractor.
