Alcohol served in all of the highlighted special event areas.
The not included areas are under our liquor license.

Thank-You,
Cindy Pierson

Okay, I've seen where you have highlighted the special event area, but where are the locations where you are serving alcohol]. Will servers be going from table to table throughout the entire special event area or can they only be served at certain locations?

You don't have the dimensions of the building in the dance map. You also do not show where you will be serving alcohol in any of the maps. If you will be serving in the entire area that should be noted, otherwise show where it will be served.

Thanks.

Jan Mason

Hi Jan,
I had to do these myself, so they don't look real professional.
If it needs to be a little better, please let me know.

Thank-You,
Cindy Pierson
