Interests & Experiences

What do you believe the key responsibility of board, commission or committee members to:
a) the city council and/or district, b) the citizens of Apache Junction, c) other board, commission or committee members?

A) Provide a private citizen's perspective on issues at hand. That input would be the result of considering the research and testimony presented to the commission. B) Represent the "man on the street's" point of view. Maintain and promote opportunities for public input. C) Objectively listen to all points of view presented. Express my own ideas in a respectful manner and base those ideas on an understanding of the issue. Support the consensus of the commission even though it may not be exactly what I desired.

Please state the reasons why you feel you are qualified to serve on this board, commission or committee:

My career was based on learning a trade, cabinet/furniture making, and then using the leadership skills learned in the US Navy to become a manager. Success in management means gathering information and making good decisions as does success on a commission.

Please state why you would like to be appointed to this city/district board, commission or committee:

I like this city and the people in it. We plan to stay here and its future is important to us. Apache Junction is going to grow as I learned participating in the ASU project and that growth will need direction. I have no specific axe to grind, I'd just like to inject what common sense I have to the process.

Interests & Experiences

What do you believe the key responsibility of board, commission or committee members to:
a) the city council and/or district, b) the citizens of Apache Junction, c) other board, commission or committee members?

Citizen participation and involvement are key to the success of our City. Community members of all ages provide insights that are vital to the decision-making process. One of the ways residents can get involved with City government is to sit on a City Council advisory committee, commission or board or attend public meetings. Most development projects go before the different committees & commissions. As Citizens, we are invited to attend public hearings, submit comments in writing and/or review development applications and documents. Public service plays a vital role in society. Public servants are committed to reflecting on their roles and responsibilities. They are committed to test and measure their values, their ethics, and their actions as they serve the government and the public. It is the role of the civil service to assist, with integrity, honesty, impartiality and objectivity in carrying out decisions and in making recommendations for the administration of public services.

Please state the reasons why you feel you are qualified to serve on this board, commission or committee:

I believe that I have the leadership, passion, work and life experiences, and educational requirements needed to successfully conduct public hearings to determine the needs of City residents with regard to public health, provision of human services and care of the elderly, handicapped and developmentally disabled. I have a combination of over twelve (12) and one (1/2) years human services work experience at both the state and county levels of government within Pennsylvania and Arizona in the fields of child welfare, early intervention and healthcare. I worked my way up from the county through to the state systems of government in Pennsylvania holding a variety of diverse human services positions, which include combinations of direct practice work, practice related policy development, administrative oversight, quality assurance and program monitoring. I recently moved to Arizona where I have been able to continue my state government career.

Please state why you would like to be appointed to this city/district board, commission or committee:

My personal values were very instrumental in regards to my chosen career path as a Pennsylvania Licensed Social Worker (LMSW). My personal values are congruent to the National Association of Social Workers Code of Ethics. The first cardinal value in the social work code of ethics is "Service", and the ethical principle states, "Social workers' primary goal is to serve," (NASW, 1999, p. 148). I believe that the highest form of service that I can perform as a social worker is to serve through public service and I understand the social value of being a part of a dedicated team and would be honored to serve my own community. I believe that my varied perspectives, educational background and work experiences would be an asset to the City of Apache Junction. The combination of my personal values (hardworking, compassion, perseverance and self-determination), MSW management and planning background, professional licensure, varied public human services program oversight, contract monitoring and quality assurance work experiences, extensive and diversified human services background and doctoral candidacy in Indiana University of Pennsylvania's Administration and Leadership program will undoubtedly provide me with the necessary tools and framework needed for success as a board member of the Health and Human Services Commission with the City of Apache Junction. I bring practical experience as an interacting professional in the human services field, with both knowledge and understanding of the environmental context that is an invaluable source from which the citizens of Apache Junction, city council, board, commission, and committee members alike can draw upon.

Experience:

- As a program monitor, I was responsible for researching, interpreting, implementing, analyzing, coordinating, evaluating, and maintaining policies, procedures, and operations in the Children's Health Insurance Program (CHIP) and adultbasic (aB) Program.
- I researched and analyzed information required for the interpretation and application of standards, policies, and procedures to ensure conformity with the federal, state, program, and departmental objectives.
- My work included a variety of operational auditing assignments of insurance companies' records, files, and practices to determine compliance with Pennsylvania's statutes and regulations and to detect unlawful practices and deficiencies in contractual obligations.

Schuylkill County Children & Youth Services, Pottsville, Pennsylvania

County Caseworker 2

(August 14, 2006-September 26, 2008)

Experience:

- I worked in the Intensive Protective Unit of Schuylkill County Children and Youth Services. I met with high-risk families on a weekly basis. Direct contact and interaction with clients took place in various venues, including but not limited to the home, community, school, and placement settings. I developed and delivered both in-home and out-of-home services to my clients.
- As a Child Welfare caseworker my responsibilities included direct contact and interaction with high-risk families on a weekly basis, providing one-on-one mental health interventions to children and adolescents under the age of 21, with serious emotional disturbances, case-management, the development of treatment plans based on the strengths perspective, consultation, referrals to community services and the constant re-evaluation of goals and services.
- I worked with many young teenage parents, most of whom were involuntary clients.
- One of my focused specializations within the agency was on drug and alcohol interventions.
- The safety and well-being of the child(ren) was my highest priority.

Providence Community Services of Pennsylvania, Pottsville, Pennsylvania

Dear Members of the Council,

I have a strong interest in serving on the Health and Human Services Commission. I have had a Master's degree in Social Sciences since 1972, with various counseling jobs related to my training.

I also served on the Mayor's Commission for Disability Issues for two terms with two of the Phoenix Mayors for a total of eight years. I have been retired for five years, and would like to serve my community.

I look forward to discussing the possibility of serving on the Commission through an interview.

Sincerely,

Interests & Experiences

What do you believe the key responsibility of board, commission or committee members to:
a) the city council and/or district, b) the citizens of Apache Junction, c) other board,
commission or committee members?

A) I feel my education and skills make me able to advocate for the public health, especially towards the elderly, handicapped and developmentally disabled. B) I can provide a unique service to our citizens, such as prospective medication review and diagnostic screenings. C) Since I have the daily task of using medical jargon with health care providers and using layman's terms with patients to provide interpretation, I am able to communicate and multiple layers to people to provide open communication between boards.

Please state the reasons why you feel you are qualified to serve on this board, commission or committee:

With my license, I am able to provide specialized service. With my passion, I am able to find work-arounds to make sure people can get the health services they need. With my dedication, I can provide protocols and resources for better health outcomes.

Please state why you would like to be appointed to this city/district board, commission or committee:

I have skills and training to help the health of my neighbors, not volunteering for such a task does my city a disservice.
