Subject: Project # PW2018-24, Idaho Road Reconstruction

City staff respectfully brings forth for discussion project PWC2018-24, Idaho Road Reconstruction. This project was not identified in the Fiscal Year 2018-19 Street Maintenance Plan (Plan). Staff looks to substitute this project for the Plan's "Ironwood Overlay" and the "Spring 2019 Slurry Seal" projects that would then be moved to next fiscal year. This change is in response to needing this portion of Idaho Road reconstructed before survey work can begin for a near future grant for further improvements along the corridor – which would include bike lanes. The segment of Idaho Road to be reconstructed is from Lost Dutchman Boulevard to McKellips Road for a total amount not to exceed including a 10% contingency of \$566,916.09.

Project has been submitted for consideration of award by city council the following night, November 6, 2018, to ensure project is completed by February 2019 when Idaho Rd. and Prospector Park will see heavy use with the Lost Dutchman Days Marathon.

Project would be funded with the city's street sales tax and HURF monies.
