Date: March 22, 2021
To: Mayor and Members of the City Council
Through: Bryant Powell, City Manager
Mike Wever, Public Works Director
From: Shane Kiesow, Public Works Manager
Subject: Consideration of Award, Project # PW2020-12B

City staff respectfully requests city council consideration of award of contract to Viasun Corporation for project PW2020-12B for the installation of a concrete lining and related work along the channel on the west side of Delaware Dr. from approximately 23rd Ave. to Southern Ave. The work involves a cement lining to mitigate a history of significant erosion that has threatened public and private facilities along this right-of-way corridor. Work will also facilitate roadway drainage and better protect landscaping along the boulevard. The work is planned for May and June of this year occurring during the day-time hours only with limited impacts to vehicular traffic lanes.

This project was among the FY22 Capital Improvement Plan & Street Maintenance Plan drainage projects presented and discussed with city staff at the June 16, 2020 city council work session. This work is allocated in the current fiscal year HURF budget.
