Footnotes from Table 5-3:

1. ~~Definitions and/or descriptions of these uses are provided in the North American Industry Classification System (“NAICS”). The City will use the NAICS classification system to assist with defining and interpreting non-residential uses.~~ Where NAICS **land use category** definitions are not provided or unclear, the Zoning Administrator shall be responsible for interpretation.
2. An ancillary manufacturing use is a subsidiary or secondary use or operation connected to the main use of a building. Ancillary manufacturing uses identified in manufacturing sectors 31-33 of the 2012 North American Industry Classification System (“NAICS”) shall be allowed in the B-1, B-2 or B-3 zoning districts if incidental and subordinate to the primary retail, office, public or quasi/public use, provided that not more than 50%, up to a maximum of 1,500 square feet, of the floor area of the business is engaged in these ancillary manufacturing activities. No outside manufacturing, processing, repair or equipment/inventory storage shall be allowed for ancillary uses (see Section 1-6-26).

Ancillary manufacturing uses proposed to be greater than 1,500 square feet and/or 50% of the total floor area may be approved as a conditional use by the Planning and Zoning Commission (see Section 1-6-26).
3. See § 1-6-16 (B) for alternate energy production regulations.
4. Land uses listed in the B-4 and B-5 district that propose outdoor assembly, repair, manufacturing, processing and/or storage shall require conditional use permit approval even if identified in Table 5-3 as a permitted use by right.
5. See § 1-6-15 for adult oriented business regulations.
6. Beer, Wine and Liquor Sales, Caterers, and Bottled Gas Dealers shall only be permitted in the B-3 district as incidental uses and not as primary uses with stand-alone facilities
7. Offices in B-4 and B-5 zoning districts shall only be permitted as ancillary uses.
8. Where a non-residential property was previously developed for commercial uses and is being redeveloped for residential uses, the new development plan shall contain whichever is greater of either:
 - (i) a minimum of 25% of the previous building square footage on the new site for commercial uses, or;
 - (ii) a minimum of 45% of the acreage shall be used for commercial uses.This definition of commercial uses shall be interpreted in a broad sense to include all typical retail, commercial and office uses.
