Director Liz Langenbach shared that direction from the city council was received to look at particular sections of our city code pertaining to Parks and Recreation. Items to be changed are the removal of the reference to position of Secretary in Article 2-8-4 since we have never utilized that position since staff have covered these duties. In Article 3-13 in the Powers and Duties section we suggest the addition of a sentence regarding which area covers tree maintenance in order to fulfill a Tree City USA requirement. In section 3-13-5 Director Langenbach wanted to discuss the removal of the entire section on Banner placement and supervision, since we no longer use banners but use the marquee instead. Clarification was given regarding the location and if this would affect hanging of other banners. She noted that at the next meeting she will bring this to the commission for their consideration to vote on and then recommendation will go to council.
